Fruit cups are one of the most cooling first courses or desserts, becoming increasingly popular as people become more diet conscious. This time of year, there are plenty of colorful fresh fruits to choose from, such as watermelon, cantaloupe, blueberries and pinechoose from, such as watermelon, cantaloupe, blueberries and pine-apple. For the final cooling touch, add a scoop of a wonderful sherbet topping made so easily you'll find lots of uses for it—simply a can of Florida's plump tangy grapefruit sections, placed in the freezer unit of your refrigerator until contents are solid. Spoon over cut fresh fruits and you have a delicious dish. The convenient canned grapefruit sections are a good buy right now so keep several cans chilling in the refrigerator to add cooling goodness and vitamin reinforcement to summer salads.

Who in the world built this beauty... the only car with wide-track wheels?

Wheels moved out 5 inches for the widest, steadiest stance in America-better cooling for engine and brakes-lower center of gravity for better grip on the road, safer cornering, smoother ride, easier handling. You get the most beautiful roadability you've ever known-in America's Number (1) Road Car!

PONTIAC! America's Number 1 Road Car!

Those exclusive Wide-Track Wheels sparked a chain reaction of wonderful new ideas: You can see the trim, tailored new look . . . it's inches lower without sacrificing roominess or road clearance. The first time you drive it, you'll discover this beauty handles city corners and clings to country curves in a way the conventional narrow-gauge cars can't hope to imitate. And the ride . . . the miraculous freedom from sway, dive and bounce . . . this is an experience in buoyant travel that you won't believe-until you try it.

But there's still more to the new Pontiac

to stamp it as the big change for '59: Vista-lounge interiors with full 360-degree visibility . . . seats actually wider than a sofa . . . Air-Cooled True-Contour Brakes for smooth, effortless control, stop after stop after stop.

The industry's most advanced V-8, Pontiac's Tempest 420, gives you spectacular new responsiveness. And there's a new companion power plant, the Tempest 420E, that delivers phenomenal extra mileage—and does it on regular octane gas! Come see why no other car can possibly be so new as the new Pontiac-three series: magnificent Bonneville, dramatic Star Chief and brilliant new Catalina.

If you love action—you get the liveliest on wheels with the new Tempest 420 V-8, acclaimed by automotive experts as America's most advanced power plant.

Pontiac's new Tempest 420E. This new V-8 actually delivers better mileage than many smaller cars with so-called "economy engines"
... and it uses regular octane fuel.
